

LONGHAUL 480

ELIMINATES ODOURS

Longhaul 480 holding tank treatment is a highly concentrated, water based liquid deodorant and cleaner designed for use in coaches and trains. It's special formula contains no formaldehyde or other harmful substances. It is made up of biodegradable surfactants and emulsifiers. Longhaul 480 attacks and eliminates odor at it's source, unlike other products that merely mask bad smells. It has a blue dye, so you can see it working and a very mild scent that will not irritate fragrance sensitive passengers. Less is required per dose than most competitor's products, making it cost effective as well. Longhaul 480 keeps your whole system free running and odor free!
